

I am concerned that FM translator stations could be forced off the air if the proposed expansion of Low Power FM (LPFM) service is approved. Right now, K-LOVE radio station is heard on FM Translators and serves hundreds of thousands of listeners across America, including my local community. By allowing LPFM stations to have priority, FM Translators could be forced off the air, leaving K-LOVE listeners without a signal and no guarantee of an LPFM providing the same family friendly programming provided by K-LOVE. K-LOVE is a unique service which cannot be found anywhere else on the FM airwaves. K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across America. The fact that K-LOVE is fully sustained by listener financial support testifies that the service K-LOVE provides is highly desired by the hundreds of communities and thousands and thousands of K-LOVE listeners who are willing to pay to have this service which they cannot find anywhere else on their radio except on K-LOVE. Your sincere consideration of these comments is greatly appreciated.
